SUMMARY

A Bachelor of Computer Science in Informatics Engineering with over 8 months of professional experience as a Full Stack Web Developer. Proven with hands-on experience in building websites using React.js and Node.js, as well as designing and implementing REST API architecture.

PROFESSIONAL EXPERIENCE

Full Stack Web Developer – Internship, Hybrid

August 2024 – January 2025

Madani Berkelanjutan

South Jakarta, DKI Jakarta

- Reduced code complexity and improved maintainability, resulting in fewer bugs and faster development of new features, by migrating the website from Laravel to React.js and implementing a modular architecture.
- Improved website performance scores from 49% to 84% (Lighthouse Insights) by implementing lazy loading, image compression, and code optimization techniques.
- Ensured smooth communication between front-end and back-end systems, eliminating communication errors and speeding up response times, by developing and implementing a RESTful API using Node.js (Express) and MySQL.
- Automated previously manual HR processes, significantly saving time and reducing human error, by building a web-based Human Resource Information System (HRIS) application.

Front End Web Developer – Freelance, Remote

April 2024 – May 2024

LSP Geospasial

Bekasi, West Java

- Achieved smooth API integration, demonstrated through efficient data flow and minimal errors, by partnering with the backend developer to grasp the API structure, tailor data needs, and resolve potential integration challenges.
- Accelerate the collection of assessment data for assessors by increasing efficiency and ease of process through the development of initial assessment applications.

PROJECTS

Natask

2025

Creator, Designer, Developer

A web-based task management platform designed to empower managers, team leads, and task assigners to efficiently distribute, track, and oversee tasks in real time.

Madani People System

2024

Full Stack Web Developer

An HRIS (Human Resources Information System) is designed to support HR tasks and facilitate the digitization of processes such as payroll submissions, performance evaluations, and other related functions.

Madani Infosphere

2023

Full Stack Web Developer

An internal information and knowledge system portal to facilitate Madani personnel in searching for and obtaining comprehensive information related to the organization's work.

EDUCATION

Bachelor of Computer Science in Informatics Engineering
